SECTION B - POLICY STATEMENT

B.1 Principles

Students who are enrolled with a higher education provider may, with the permission of that provider, study approved module offered by another HE provider. In cross institutional enrolment, the completed module at the host institution comprises part of the student's award qualification. In non-award enrolment the completed module at the host institution does not comprise part of the student's award qualification.

This policy's intention is to clarify the rights and responsibilities of students enrolled in award programs at SAIBT who wish to undertake cross institutional and non-award enrolment at another institution. It also clarifies the rights and responsibilities of students who are enrolled at other higher educational institutions who wish to undertake cross-institutional and non-award enrolments with SAIBT.

While a cross-institutionally enrolled student will study with more than one provider, the student will only be issued with one qualification or award. The qualification will be awarded by the home institution.
